

## **Weekly Activity and Progress Report – CS 440 Group 1 for Week 8**

Group Members: Diego Bravo, Nicholas Filipov, Jose Bolanos, Alejandro Bravo

### **Weekly In-Person Review Meeting**

- When: 10/16/2024
- Where: UIC Library
- Missing ( why ) : None
- Late ( why ) : None

### **Recent Progress**

- Diego Bravo: Set up sprint R2-1 on Jira and created Stories. Created a notifications page that will display notifications and alerts to the user, but it still needs implementation.
- Nicholas Filipov: Created a database in Firebase to store the user's information instead of in a file on the emulator. Connected Firebase to android studio and learned how to write to the database using code through the application.
- Jose Bolanos: Created and finalized the page where users can input their categories and spending limits for each categories. Additionally started the activity log that displays the user activity more in depth, but did not get to finish it. Finally, logged my activity in jira.
- Alejandro Bravo: Attended weekly meeting in library, actively was on JIRA, and added userInfo button to be able to access the navigation menu and access other pages.

### **Current Action Items ( Work In Progress )**

- Diego Bravo: Set up Jira sprint R2-2. Learn how to send notifications in Android Studio and start implementing the notifications page.
- Nicholas Filipov: Modify create account page to be able to send user information after user creates account into the database. Then begin reading in saved user information into a person class to be able to use their information after logging in.
- Jose Bolanos: Finish the activity log and help my peers with the data stroing in firebase This will include creating an account and storing any data that the user inputs.
- Alejandro Bravo: Connect userInfo data into the firebase inorder to save user information and update it accordingly + implement new features for UI. Prep for midterm exam, and attend weekly meetings in the library.
