

Weekly Activity and Progress Report – CS 440 Group 1 for Week 11

Group Members: Diego Bravo, Nicholas Filipov, Jose Bolanos, Alejandro Bravo

Weekly In-Person Review Meeting

- When: 11/06/2024
- Where: UIC Library
- Missing (why) : None
- Late (why) : None

Recent Progress

- Diego Bravo: Wrote notification utilities. Implemented sent notifications to phone and stored them to the notification page. Configured required permissions on application. Prepared the application for demo 2.
- Nicholas Filipov: Made user account screen be able to modify the user's information from the screen to the data base. Made a new page that lets users input how much they spent for each category and updates the total amount in the database, then retrieved those numbers and put them on the budget page pie chart.
- Jose Bolanos: Worked on connecting the category page to firebase. Was able to read data and updates data to firebase through that page. Additionally, created more tables in firebase to store info and met with my group to prep for our presentation.
- Alejandro Bravo: Met a library for a weekly meeting. Worked on the user info page to be able to read user info within the database. Got the edit button to work so it updates the database for users info and in the user info page. Prepared for a coding presentation.

Current Action Items (Work In Progress)

- Diego Bravo: Polish up the UI and improve the user experience across features.
- Nicholas Filipov: Make sure the budget page is properly loaded every time the user accesses it by including a reload button, and then make app look visually better.
- Jose Bolanos: Work on slide for presentation and finish connecting the activity log to firebase. Also meet with team and discuss how to help make UI look better.
- Alejandro Bravo: Polish UI to make the user info page more appealing. Add the dark mode option to the app. Attend weekly meetings. Add new issues to sprint on Jira.
