

Weekly Activity and Progress Report – CS 440 Group 1 for Week 10

Group Members: Diego Bravo, Nicholas Filipov, Jose Bolanos, Alejandro Bravo

Weekly In-Person Review Meeting

- When: 10/30/2024
- Where: UIC Library
- Missing (why) : None
- Late (why) : None

Recent Progress

- Diego Bravo: Tested an event triggered notification. Attended group meeting. Wrote up development project requirements. Wrote up summary for requirements deliverable.
- Nicholas Filipov: Finished imputing all values into Firebase from the create account screen and finished login process to login to only accounts that exist. Began designing spending category tables to be created for users.
- Jose Bolanos: Finished the UI for the actuivity page. Adittionally started working with Firebase in regards to the "adding category page" Also finalized the next sections due for the development project and worked on the two page summary of it.
- Alejandro Bravo: Attended weekly meetings in the library. Was able to read real-time information about the user and was able to store it into the user info page. Created a button to edit user information and store locally. Worked on 2 page summary and part 2 requirements for development project.

Current Action Items (Work In Progress)

- Diego Bravo: Integrate database spending info with notification system. Prepare demo for Friday.
- Nicholas Filipov: Make updating user information in the database using the page to modify existing user information. Begin inserting values of what the user spent for each category in database using app screens.
- Jose Bolanos: Finalize the firebase work in regards to the "adding category page" and also read info from firebase to display stuff in the activity log. Meet with my group and prep for the code presentation.
- Alejandro Bravo: Attend weekly meetings, create a new sprint, prepare for coding presentation, and store userInfo edits into the firebase database.
