

Weekly Activity and Progress Report – CS 440 Group 1 for Week 7

Group Members: Diego Bravo, Nicholas Filipov, Jose Bolanos, Alejandro Bravo

Weekly In-Person Review Meeting

- When: 10/09/2024
- Where: UIC Library
- Missing (why) : None
- Late (why) : None

Recent Progress

- Diego Bravo: Finished implementing navigation menu and drawer. Polished up UI. Met with group for scrum meeting and writing up scenario 2. Presented Demo 1 with group.
- Nicholas Filipov: Created a way to read from the user data file on the emulator and updated some screens to use the user data that is gotten from the file including the email, and spent values for the pie chart.
- Jose Bolanos: Worked on finalizing the code for our demon. Specifically made sure that users were able to dynamically add different account tabs. Also worked on the second programming scenario with my team, and finally completed demo 1.
- Alejandro Bravo: Presented coding demo 1 for group. Added a navigation button to open and close button within navigation. Met in library for weekly meeting.

Current Action Items (Work In Progress)

- Diego Bravo: Begin next release work for Coding Project. Our group will meet in the beginning of the week to assign tasks to each member and write stories on Jira.
- Nicholas Filipov: Instead of using the userdata file, figure out how to connect Firebase to android studio and create a database on it. Then use the application to send and receive values from the database to use on the application.
- Jose Bolanos: Create an activity log for our coding project. This will display the activity of user accounts. Also will assist in trying to figure out how to use fire base with our project.
- Alejandro Bravo: Work on reading info for user info page and add other features for our UI. meet for weekly meeting. Be active in JIRA.
