Weekly Activity and Progress Report – CS 440 Group 1 for Week 9

Group Members: Diego Bravo, Nicholas Filipov, Jose Bolanos, Alejandro Bravo

Weekly In-Person Review Meeting

- When: 10/23/2024
- Where: UIC Library
- Missing (why) : None
- Late (why) : None

Recent Progress

- Diego Bravo: Set up Jira sprint for the week. Implemented a RecyclerView for the Notifications Screen with some simple set up. Added a sample set of notifications for example.
- Nicholas Filipov: Modified the create account page to only move on if all boxes are filled and passwords match. Then sent all the text boxes information to the Firebase database after next button is pressed.
- Jose Bolanos: Kept working on the actvity log page for moneyman. Continued trying to get more familiar with firebase. Met with team and discussed how next week firebase will be used in the project.
- Alejandro Bravo: Added issues/stories to Java sprint. Created an account on firebase and created an account on app in order to access data members and be able to read in information.

Current Action Items (Work In Progress)

- Diego Bravo: Implement at least 1 event triggered notification that will add it to the notification screen and send the notification to the device. Once that's done, database will be integrated for true event-triggered notifications.
- Nicholas Filipov: Read in user data from Firebase database, save it to something like a Person object to be used on other screens.
- Jose Bolanos: Setup the creat an account process in our program to save all the info the user inputs. Continue working in the next sections of the development program.
- Alejandro Bravo: Implement account made on firebase In order to get information and update it within the user info page. Attend weekly meeting in library.
